TIP OF THE MONTH - Check both your personal and station licenses for the expiration dates thereon. Seems that one of our stations, which shall remain anon-- anoi-- annymus--; anyway, unknown, let the ticket expire, FCC takes a very dim view of this, so play it safe and get the renewals in on time. It's a mighty easy item to overlook, so mark the calendar in big red letters. Nuff said!!

Rick and Ralph of 6YDK, report that work on their new station will commence about 15 April and they hope to be 'in' by 1 May. And a busy pair they are, too.

-...-

4NTR got a taste of the problems faced by Kaneohe a few weeks ago when heavy winds rapped the TA33. Now have a beam that behaves like a vertical. Hope to get it back in business on the first windless day.

-...-

4NTR just had the pleasure of a quick 'eye-ball' with Sid Wire, now a brand new WO in school at Quantico. Sid is W4CG0, and we may hear from him out of Memphis before too long. He sends regards to all hands.

-...-

East coast stations will be looking for the KR6's starting 15 April. Be on 14265 at 1100Z. Thus starts another busy season for the easterners after the long winter drought.

-...-

Traffic totals for April should be considerably higher than the same time last year, at the rate they're moving now.

-...-

Gus, WA4FCS, is already knee-deep in traffic handling and having a ball on sixty watts AM. Seems he's already been hooked into acting NCS on the Virginia Phone Net next thing you know, he'll be net manager.

-...-

Easter season daffodils to Mae, W3CUL. Our gal is still in there punching the traffic and providing the big push for our MC type traffic going both east and west. Thanks, Mae; we appreciate it.

-...-

Nothing much to report in this issue, so we'll wrap it up. Pass along your tid-bits of info for next months issue, we'll be glad to use it.
